

TETON COUNTY FAIR EXHIBITS

OPEN CLASS DEPARTMENTS, DIVISIONS AND CLASSES

ADULT SECTION (AGES 18 & OVER)

DEPARTMENT A - OPEN CLASS HORTICULTURE

Drop off items on Wednesday, July 25th
7:00 a.m. - 10:00 a.m.

General Rules: All agricultural crops, forage, vegetables, fruit and flowers grown in a form of controlled environment will use the same class numbers plus HH (i.e. Class 1 HH). *All entries in this department are to have been grown by the exhibitor and must be correct names.*

BEST OF SHOW: *Kathy Reddy*

DIVISION 1 - VEGETABLES

Display leafy vegetables (such as lettuce & spinach) in a wide mouth jar containing water. Display all others on a plain paper plate. Root vegetables should have the root intact. Brush dirt off, don't wash. Rub with dry rag if needed, should be a clean item, not a table ready washed one.

HOW TO PREPARE VEGETABLES FOR EXHIBIT:

Beets: Color and tenderness are desirable qualities in beets. Oversize should be avoided. As a rule, beets from 2-4" in diameter are best. Beets showing white streaks should be avoided. They should be smooth, without side roots or cracks. If topped, be sure that an inch of stalk is left on.

Beans, Green or Wax: Snap should be under, rather than over mature. Long straight specimens the same length and color should be selected. Avoid stringiness. The pods should be free from rust spots, dirt and insect blemishes. The end of the bean should be left on, not broken off when picking it. The seeds in the pod should appear to be one-fourth to one-half grown.

Broccoli: Cut stems before the first whorl of leaves. The length of the stem should never be over 6". Heads should be compact, dark green (avoid yellowing) and free from decay, worms or damage caused by wilting or injury.

Carrots: Avoid oversize. Type is very important. Quality is best in the medium-size carrots. Color is very important. A deep orange carrot as nearly coreless as possible shows to a good advantage. Greenish and pale-yellow specimens and coarse specimens should be avoided. Carrots should appear fresh, crisp, firm, smooth, clean and free from sunburn, side roots cracks or other damage.

Tomatoes: Use only perfect shaped specimens true to type. Smooth, no green streak, ripe, but not too ripe. Must be solid. Display with blossoms up.

Turnips: Medium sizes are generally desired as having higher quality. Large size may be bitter, and should be free of damage caused by freezing, pithiness, secondary rootlets. All samples should look alike, should be clean and bright in color, but not washed. Remove tops 1" above crown.

Radishes: Crisp and tender, medium to large, uniform shape and color. Free from injury caused by disease, insects, growth cracks or damage while digging or handling. Clean and wash, exhibit with foliage; avoid pithy specimens.

Lettuce: Should be crisp, fresh, firm, free from sunscald and rots or mold. Heads should be solid and free textured. Loose wrapper leaves should be removed just before showing.

Onions: Must be thoroughly ripened with necks dry. Uniformity and maturity are of particular importance. Type is important. Avoid large sizes. Should be clean, smooth and not peeled i.e. slick. The loose wrapper skins should not be removed. Onion must be solid and there must be no splits or doubles. Neck should be small. Onion should be free from damage caused by dirt, moisture, sunburn, cuts, disease, insects or other injury.

DEPARTMENT B - FLORICULTURE

Drop off items on Wednesday, July 25th
7:00 a.m. - 10:00 a.m.

General Rules: This show is open to any gardener. All entries in Division 1 and Division 3 are to have been grown by the exhibitor entering the exhibit. Only foliage that is natural to the flower is to be shown. Please bring only the number of cut flowers specified. Containers for all artistic design entries must be marked with the name of the exhibitor. The Flower Show Committee will exercise care, but cannot be responsible for loss or breakage of containers. Additional foliage material and bases may be used for all artistic design classes. No artificial flowers or foliage may be used. Coloring of fresh plant material is not allowed. A very limited "dressing" of exhibits is allowed, such as the removal of one or two outside petals of very full flowers.

No noxious weeds will be accepted for display in Teton County Fair exhibits. No white daisies in flower arrangements.

BEST OF SHOW - Joni Upsher

Scale of Points: Cultural Perfection

35% Color, 25% Form, 15% Foliage and Stem, 10% Substance, 10% Condition & 5% distinction of Species or Variety.

Flowering Plants - 35% Cultural Perfection, 20% Size of Plant, 15% Floriferousness, 10% Rarity, 10% Color & 10% Foliage.

Foliage Plants - 35% Cultural Perfection, 20% Size (according to variety), 15% Distinction, 15% Rarity & 15% Form (according to variety.)

Arrangements - No scale given.

DIVISION 1 - CUT FLOWERS

General Rules: All agricultural crops, vegetables, fruits and flowers grown in a form of controlled environment will use the same class number plus HH (i.e. Class 91 HH). Cut flowers and plant material in early morning or late in the afternoon. Place flowers and plant material immediately in deep warm water. Cut end of stem at a slant. Place in cool dark room or out of drafts (from heat or air conditioning). Do this for several hours or overnight. Place water in container before starting design. To keep designs fresh, avoid any leaves or petals under water. A bloom is a single flower on one stem. Cut specimens are to be judged on their own merits, not those of the containers. Please be sure your vase is sturdy enough for your entry.
